SUMMARY

Programmer with experience in various languages, game development, software development, and web server and network administration. Good knowledge of physics and mathematics, a solid understanding of cybersecurity concepts, and the ability to work comfortably with agile frameworks such as Scrum. I am seeking a role where I can utilize my technical skills and grow as a developer. References available on request.

EDUCATION

NTI Gymnasiet, Södertälje — Gymnasieexamen

With a focus on information technology

2021 - 2024

NTI Gymnasiet, Södertälje — Gymnasieingenjör

With a focus on software design

2024 - 2025
